24x7 managed IT support

Securely empowering your digital growth

Your all-in-one IT partner: 24x7 support, DevOps, application modernisation, cost optimisation, security and compliance. Everything in IT, except running your business.

24/7	99.9%	150+	50+
Support & monitoring	Uptime maintained	Projects delivered	Happy clients

WHAT WE DO

All in one, except running your business

24x7 support comes first. On top of it: DevOps, modernisation, cost optimisation, security and compliance, all from one team.

24x7 Managed Support

Round-the-clock NOC monitoring, server and desktop support, Microsoft 365 and L1–L3 engineers.

DevOps

CI/CD pipelines, infrastructure as code, Docker and Kubernetes on AWS, Azure and GCP.

Application Modernisation

Move legacy apps to the cloud: containers, microservices and serverless, without a risky rewrite.

Cost Optimisation

Cloud cost reviews, right-sizing and waste clean-up. Most businesses pay for 20–30% more cloud than they use.

Security

Server hardening, vulnerability management, WAF and zero-trust access. We close the gaps first.

Compliance

Audit-ready controls and evidence for ISO 27001, SOC 2, GDPR and PCI DSS.

WHY ZYPLEX

A partner, not just a vendor

You focus on your customers. We take care of everything else in IT. No jargon, no lock-in.

- 24x7 support with certified L1–L3 engineers
- Security-first, from day one
- Transparent pricing and clear timelines
- You own your code and your data

HOW WE WORK

A clear path from idea to impact

01
Discover
We learn your business, goals and constraints first.

02
Design
Architecture, security and roadmap, agreed with you.

03
Build
Iterative delivery with demos at every step.

04
Support
Launch, monitor and improve. We stay on.

CLIENT STORIES

"Zyplex migrated us to the cloud with zero downtime and cut our hosting bill by 40%. True professionals."

Operations Lead
FinTech startup

"Their security review found issues three other firms missed. We sleep a lot better now."

CTO
Healthcare SaaS

"Responsive, honest and genuinely skilled. They feel like part of our own team."

Founder
E-commerce brand
